### **1. Research seminars at the Institute of Neuroscience**

One weekly seminar throughout the academic year.

Evaluation system: Writing of an annual report with the summary of two seminars.

The activity "**Research Seminars of the Institute of Neurosciences**" is one of the most important training activities.

As described on the website

([https://www.umh.es/contenido/Estudios/:tit\\_d\\_216/datos\\_en.html?frm=pintaDoctoradoPlanEstudios](https://www.umh.es/contenido/Estudios/:tit_d_216/datos_en.html?frm=pintaDoctoradoPlanEstudios)), during your entire training period you must **attend at least 40 hours of seminars**.

**Dr. Javier Morante, coordinator of the Institute's Seminars**, will be in charge of evaluating this activity. On the one hand, he **will control the attendance** to the seminar through the application with which the seminar is being given (Google Meet, Conecta, Zoom...). On the other hand, as you can see in the web page mentioned above, for the evaluation of this activity, it will be necessary for you to make **a brief summary per year**.

This brief summary will be **of two of the seminars you have** attended, chosen by you. Each brief summary should be no longer than one page, including the title of the seminar, the name of the speaker and the date. When you have the two summaries you should send them **together**, not separately, to **[j.morante@umh.es](mailto:j.morante@umh.es)**.

**HOW TO JUSTIFY THE ACTIVITY:** upload a certificate issued by the PhD programme lecturer Dr. Javier Morante to the application form.
